Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Burnidge (US 6,776,501).

Regarding claim 1, Burnidge ('501) discloses a illuminating handle/strap having a translucent polymer shell structure 10, a Led illumination unit 30, a switch (column 2, lines 25-29) a translucent polymer 20, means for illuminating the exterior surface being that as a illumination unit powered by a battery 50, and means to the handle (figure 1).

Regarding claim 2, Burnidge teaches that the LED illumination unit can be constant or intermittent illumination (column 2, lines 25-29).

Regarding claims 3-4 Burnidge shows a plurality of at least two LED illumination units inside the handle (figure 1).

Regarding claim 5, Burnidge teaches in claim 6 that the translucent polymer shell has a predetermine length that will hold the shell to a handle.

Claim Rejections - 35 USC § 103

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Burnidge.

Regarding claim 6, Burnidge shows a opaque symbol (not labeled) in figure 1 being that of a flexible design but does not teach the design being made of a opaque design that can be laminated onto the surface of the shell structure.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to laminate the symbol onto the shell structure, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matte of choice. ***In re Leshin, 125 USQP 416.***
